Objective

I pursued Information Technology at the Community College of Allegheny County for three years, but recently I've pivoted into Frontend Development. I have experience designing websites, accessing API's, and I've completed a virtual internship under the FES Institute. I'm seeking full-time employment as a Frontend Developer.

Work Experience

Aug 2025

Frontend Developer Internship – *Frontend Simplified*

- Transformed static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousel
- Processed API requests to dynamically present data from a cloud server and represent it though skeleton load states, pagination and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

2024 - 2025

Chili's, Pittsburgh Mills – *Prep Cook*

- Maintained fast-paced, high-volume service with consistent quality
- Practiced safety and cleanliness standards aligned with protocol
- Adapted quickly to team needs, often troubleshooting issues on the fly

2022 - 2024

From Italy, Inc. Springdale, PA – *Line Cook*

- Collaborated with kitchen staff to fulfill 100+ daily orders under pressure
- Developed problem-solving skills through resource management and time constraints
- Provided front of house service, building customer service strength

Languages

HTML, CSS, JavaScript, React, some experience with Firebase
